

Dear reader,

I am currently a student of the Full Stack Web Developer program at Helsinki Business College and I am looking for an up to 6 months internship position as part of my studies from this upcoming 21st of October to gain more experience in coding, enhance my real-life work knowledge in this field and improve my skills.

My focus is primarily on JavaScript, React JS and Node JS. Same time I learnt MySQL (MariaDB) and NoSQL (MongoDB) at school. I am a very motivated and eager to learn; my end goal upon graduation is to pursue a career in the IT field.

Make Helsinki caught my interest in work you have done for your clients. I would like to learn more about in and go deeper in backend and React Native. This is one of the reasons, why I think that doing internship at Make Helsinki is a great opportunity to get that experience.

During studies, I was involved in a several projects:

- **Summer project with Exove:** where we worked in a team of 4 people and created an application where users can see a list or a map of events near them, using ReactJS, NodeJS. information about events is taken from MyHelsinki Open Api. Result: <https://github.com/valentinajakobson/events-app>
- **Event manager project.** Build in a team. Result is a MERN web application: <https://github.com/Rostislav013/event-manager>  
Where I was responsible for making registration/log in and connection to MongoDB.
- **Website for Singaporean association in Finland.** Simple website for Singaporeans living in Finland to connect them together. In process yet. [https://public.bc.fi/s1900169/SG\\_70/](https://public.bc.fi/s1900169/SG_70/)
- **Others** as part of the studying. Which are mainly based on JavaScript, ReactJS and NodeJs. Can be seen in <https://github.com/Rostislav013>

I would like the opportunity to meet with you to discuss internship opportunities you have available. Please let me know if you have any questions. You can reach me by phone +358442399523 or by email at [rostislav013@gmail.com](mailto:rostislav013@gmail.com)

P.S. I have a work residence permit with no limits of working hours.

Thank you for your consideration.

Sincerely,

Rostislav
